

Hydroponic Floating rafts

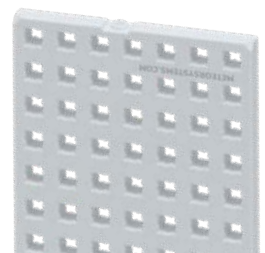

Featuring unique X-hole for optimal growth and higher yields

- Durable floating rafts with smooth, easy-to-clean surfaces
- Made from food-safe High Density Polyethylene
- Unique X-shape planting hole allows air and CO₂ to flow directly along the plant plug
- Choose from 24 up to 280 planting holes per m²

New!

140-hole floating raft

Bring your yield per square meter to a new level with our new 140-hole rafts! This high density float has 140 X-shaped planting holes, making for a total of 280 holes per m².

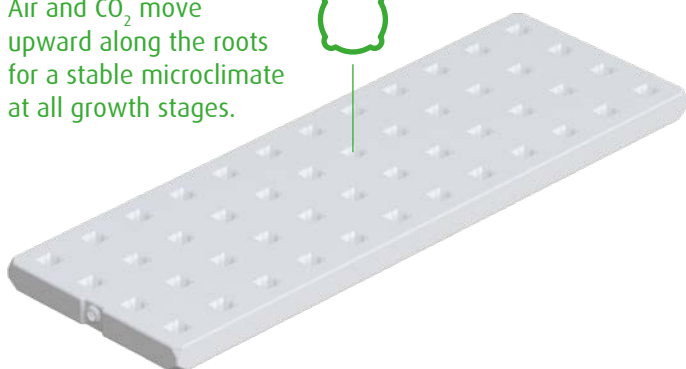

Experts in hydroponic growing solutions

Air and CO₂ move upward along the roots for a stable microclimate at all growth stages.

Meteor Floating Rafts

- Made from High Density Polyethylene (HDPE) for a long lifespan of 7 to 10 years under intensive use
- Smooth, non-porous surface for easy cleaning and optimal food-safety
- For use in deep water culture, Eb&Flow and nutrient film technique
- Yield improvements up to 15 to 30% across various crops compared to traditional planting holes

Specifications

Number of planting holes*	Holes/m ²
12	24
16	32
24	48
48	96
70	140
96	192
140	280

*Suitable for leafy greens and herbs

1200 x 400 mm
47.24 x 15.75 inch

DWC: 50 mm
1.97 inch

Suitable for leafy plants and herbs
